DROP-SHIP

Thorsten jewelry offers drop shipping to any customer. Drop shipped packages include a Thorsten brand ring box, warranty information card, and a packing slip. Packing slips do not include any pricing information.

SPEED

Our rings usually ship the same business day. Engravings do not delay your order. Custom engravings and fingerprint engravings will add a few extra days.

WARRANTY

All Thorsten jewelry is made to the highest standards using quality materials and expert craftsmanship and is warranted to be free of defects. Any jewelry that fails to meet our standards of excellence will be replaced under our warranty. If your ring cracks or breaks from accidental damage, it will be replaced under our warranty terms. This policy does not apply to custom rings.

SIZING

Due to the hardness of alternative metals, they cannot be resized like traditional gold or platinum rings. Therefore, if a customer's finger size changes over time, the ring will be replaced with a different size. Thorsten will exchange your ring for a different size as long as your customer owns the ring.

TUNGSTEN CARBIDE CLASSIC COLLECTION

TUNGSTEN CARBIDE RINGS

Resilient, scratch-resistant and heavyweight. Tungsten is a metal that symbolizes both strength and commitment. Widely regarded as one of the toughest things in nature, tungsten carbide rings have become a very popular choice amongst wedding bands. The Swedish translate tungsten as “heavy stone” and has become one of the strongest alloys used to make jewelry. The combination of nickel and tungsten carbide come together to create an exceptional and enduring wedding band fit for those ready to make a statement.

WHITE TUNGSTEN CLASSIC COLLECTION

WHITE TUNGSTEN RINGS

Through a special proprietary bonding process, precious metal rhodium from the platinum family combined with tungsten giving it that sleek and classy presence. The durability of white tungsten is unmatched and more scratch-resistant than any other contemporary metal and precious metal wedding band. As a result, white tungsten is the preferred metal choice for grooms seeking an alternative metal wedding band with the bright white radiant look of platinum or white gold.

TUNGSTEN CARBIDE DIAMONDS & GEMSTONES COLLECTION

TUNGSTEN RINGS WITH DIAMOND & GEMSTONES

Cut, Color, Clarity and Carat. Four characteristics that are highly significant to the diamond and gemstone culture. Our designers have carefully and strategically combined the two hardest jewelry materials in the world, tungsten and diamond. The result of this one-of-a-kind combination is our powerful tungsten and diamond wedding band line. A touch of classic with a cutting-edge metal, tungsten diamond and gemstone rings are among the most coveted wedding bands in the world.

TUNGSTEN CARBIDE DINOSAUR BONE COLLECTION

RINGS WITH REAL DINOSAUR BONE INLAY

Even after 65 million years of extinction, dinosaurs have found their way to still roam the earth. The agatized dinosaur bone used is a fossilized dinosaur bone reintegrated with minerals. The minerals give each dinosaur bone inlay its own unique color and cell structure transforming it into a modern work of art.

BLACK TUNGSTEN CLASSIC COLLECTION

BLACK TUNGSTEN RINGS

Aggressive. Powerful. Formal. Black Tungsten combines the strength and weight of tungsten carbide rings with a deep, dark exterior. One of the trendiest looks in tungsten wedding bands, black tungsten is obtained by shooting tiny particles of titanium zirconium alloy, which is black in color, at an extremely high velocity so that the particles embed themselves into the surface of the tungsten ring. Draw in the eyes with a bit of mystery and evoke authority with our black tungsten.

CERAMIC CLASSIC COLLECTION

LIGHTWEIGHT CERAMIC RINGS

From black ceramic rings to wood inlays, colorful patterns and metallic accents, there are hundreds of unique styles to choose from. They are strong and will not warp out of shape after years of wear because of their high melting point. Along with its shiny and sleek exterior, ceramic is hypoallergenic and perfect for anyone with a metal allergy. A fine addition to accent any wardrobe, you will find that ceramic bands are quite an appealing conversation piece.

TITANIUM WOOD COLLECTION

Wood inlay titanium rings offer a natural distinction and truly unique way to show your connection with the Earth. Each piece of wood used is one-of-a kind, manifesting an amazing sense of balance through its elegant design. The titanium design offers the same durability as gold, platinum or stainless steel with more comfort due to its lightweight qualities.

DAMASCUS STEEL CLASSIC COLLECTION

DAMASCUS STEEL RINGS

Bend but never break. As two different kinds of stainless steel are contorted and intertwined, our Damascus steel rings take shape to create a one-of-a-kind impression. The grooves created in the rings help the colors set and pop. Through the fire and flames, Damascus steel emerges as a distinct choice in rough and rugged wedding bands.

ENGRAVING COLLECTION CUSTOM DESIGNS

FINGERPRINT AND HANDWRITTEN RINGS

Ask yourself, what does your ring mean to you? For somebody else? Give your ring its purpose and empower it with an identity much like your own. Fingerprint and handwritten bands are fast becoming the customized jewelry of choice. Available in any style of ring we carry; these rings are great for any occasion. Adding your very own personal influence makes for a great story and this is yours to tell.

FONT COLLECTION

ENGRAVABLE FONTS

We have a large collection of true type and open type fonts for engraving onto any of our rings. Create something that holds deep meaning, share the name of a loved one, or engrave a saying that stands the test of time. We can make it happen. Our talented creative team can obtain almost any custom font to truly bring your vision to life.

CUSTOM FONTS

Custom fonts can be requested by phone or email. If we are unable to obtain a font requested, the customer can also send us the font installation file (.otf and .ttf files accepted).
